Twin Wheel Castors

266-269

Light, Medium and Heavy-Duty Castors

270-285

Stainless Steel Castors

286-287

Temperature-Resistant Castors

288-291

Expander Fitting Castors and Wheels

292-293

A range of light duty to heavy duty castors.

Twin wheel castors are produced in numerous combinations of wheel and stem. Our twin wheel castors have an easy glide action and are available with or without brakes. Industrial castors are ideal for office furniture, shopfitting, and catering. Our industrial castors may also be used with light-duty medical apparatus.

High Temperature Resistant Castors

- Phenolic wheels with steel or stainless steel housing
- Operating temperature up to 260°C
- Ideal for powder coating, bakery ovens and other applications where resistance to temperatures are required
- Good resistance to water and chemicals
- See pages 288 - 291

White Nylon Wheel, Stainless Steel Housing Castors

- Stainless steel housing resistant to corrosion and rust
- Ideal for catering and medical industries
- Excellent resistance to water and chemicals
- See page 286 - 287

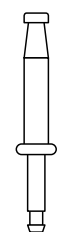

32mm Light Duty Castor - Hooded

The weight loadings quoted in this catalogue are for guide purposes only and assume that castors are used in a normal operating environment with floors in a smooth and reasonable condition.

Uneven or irregular floors will cause increased shock loadings. Castors of higher load-bearing capacity must be specified in these situations.

Castor loading capacity can be seriously impaired if castors are misused or poorly maintained, e.g. if used outside normal operating temperatures and/or if used in caustic environments.

Natural Rubber Tyre Swivel Plate Braked Castors

SR 5609

Natural Rubber Tyre, Zinc-Plated Steel Housing

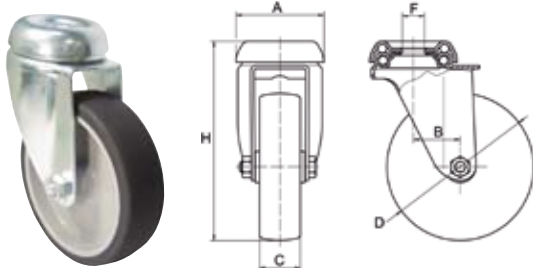

- Suitable for medical equipment, display cabinets, point of sale, educational furniture, computer & office furniture
- Natural grey rubber tyre not resistant to contact with greases, oils & chloride
- Pressed steel housing with double ball race and swivel plate fitting
- Comes with threadguards as standard
- Total stop brake locks swivel and wheel

Industrial Castors - Polyurethane Tyre, Cast Iron Centre, Swivel Plate

EXTENDED RANGE

SR 5625

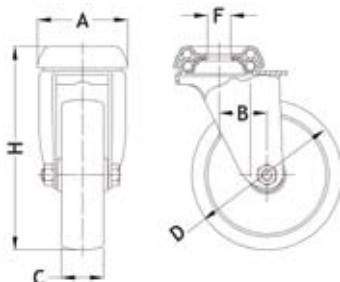

- Ideal for heavy-duty applications such as trolleys, lifting equipment & automatic gates
- Good resistance to wear, greases and petroleum byproducts
- Heavy-duty pressed steel housing with double ball race crown
- Ball bearings for smooth motion
